

THIS PROJECT HAS RECEIVED FUNDING FROM THE EUROPEAN
UNION'S HORIZON 2020 RESEARCH AND INNOVATION
PROGRAMME UNDER GRANT AGREEMENT NO 763909

Grant Agreement No. H2020-763909 - 09/08/2019

Horizon 2020

Competitive Low Carbon Energy

New Knowledge and Technologies – Sustainable Fuels

Diversification of Renewable Fuel production through novel conversion routes and novel fuels

Project acronym:

KEROGREEN

CO2 Neutral Aviation Fuel

D 7.1

Project website established

Author:

Martin Knapp, KIT

done in Karlsruhe on: September, 28th 2018

Revised by Sabine Müller, KIT, on Thursday, August 08, 2019

Grant Agreement: H2020/LCE-06-2017/"KEROGREEN"/763909

Project duration: 1 April 2018 ÷ 31 March 2022

Project total cost: € 4.951.959

EU contribution: € 4.951.959

Coordinating entity: Dutch Institute for Fundamental Energy Research, DIFFER (NL)

De Zaale 20 – 5612 AJ Eindhoven – Netherlands. Postal address: PO Box 6336, 5600 HH Eindhoven, NL

Coordinator: Adelbert P H Goede

Tel.: 0031–40 3334 955, Email: a.p.h.goede@differ.nl

Project partners: KIT (D), VITO (B), CerPotech (N), HyGear (NL), INERATEC (D).

Project web site: <http://www.kerogreen.eu>

<https://www.differ.nl/network/kerogreen>

1. SCOPE

The dedicated project website www.kerogreen.eu is to implement one of the main objectives of work package 7 'Dissemination and Exploitation / Business Plan' namely to ensure the widespread dissemination of project information and results.

This deliverable is to confirm that a respective website as well as a password restricted staff site have been established and will continuously be updated by the communication and dissemination team at KIT-FOR based on input from the whole project consortium.

2. TECHNICAL DESCRIPTION & IMPLEMENTATION

Dedicated project website for dissemination of knowledge on project and later to spread results

- an OpenText based web-site project was set up with help of KIT computing services
- a list of partner institutions and links to their respective websites was taken-up
- a general description of KEROGREEN main targets and contents was integrated
- work package descriptions are displayed to illustrate the KEROGREEN approach

Note (S. Müller 08.08.2019): the content of the website has been revised since the initial submission of the deliverable D7.1. The WP description has been deleted and replaced by a more detailed description of the project concept and approach, as well as its objectives and impacts. Also, sections dedicated to news and events, publications and downloads have been included. These additional sections are regularly updated.

Current content of Website is illustrated below (starting page of the website)

Project internal team site allowing information exchange within the Consortium

- a KIT team-site was set up with help of KIT computing services
- initially, a storage system with different folders was established and opened to the partners
- Information mainly on project meetings was stored: agendas, presentations, minutes
- Separate spaces were established for each work package for exchange of internal information

ANNEX 2

Notification confirming that the project internal team site had been established

Von: ticketssystem@scc.kit.edu [mailto:ticketssystem@scc.kit.edu]
Gesendet: Mittwoch, 20. Juni 2018 15:04
An: Knapp, Martin (FOR)
Betreff: RE: Ticket #76582: Einrichtung einer KIT-Teamseite

Ihre Anfrage an das SCC (Ticket-Nummer 76582) wurde bearbeitet.

Zusammenfassung:
Teamseite wurde eingerichtet:
<https://team.kit.edu/sites/kerogreen>

Details zur Lösung:
Die Teamseite ist eingerichtet: <https://team.kit.edu/sites/kerogreen>

Martin Knapp ist mit dem KIT- Konto als Websitesammlungsadministratoren und als Besitzer der Teamseite eingetragen:
<https://team.kit.edu/sites/kerogreen/layouts/15/start.aspx#/layouts/15/mngsiteadmin.aspx>
<https://team.kit.edu/sites/kerogreen/layouts/15/start.aspx#/layouts/15/people.aspx?MembershipGroupId=6>

Wir empfehlen hier noch mindestens eine weitere Person einzutragen.

Wenn Sie neue Zugriffsberechtigungen hinzufügen, beachten Sie bitte vorab unsere Empfehlungen in der Dokumentation --> <https://team.kit.edu/dokumentation>

Das Initial-Kontingent der Teamseite beträgt 1 GB.
Bei Erreichen der Warngrenze wird der erste Seitenadministrator per E-Mail informiert.
Upload-Limit pro Dokument: 250 MB

Der ITB kann bei Bedarf eine Kontingenterhöhung anfordern - am Besten über ein Musterticket im ITB-Portal:
<https://team.kit.edu/sites/kit-itb/scc-ticketssystem/pages/ticket-erstellen.aspx?tid=41387>

Weitere Infos zur Bearbeitung finden Sie im Intranet: <http://www.scc.kit.edu/dienste/5740.php> oder auch auf der Startseite der KIT-Teamseiten: <https://team.kit.edu>.

Bei weiteren Fragen können Sie sich gerne melden.

Grüße aus dem SCC
Sabine Grindler
